Teens Dance Intensive

Expectations/Rules of the Class:

- This class is intended for teens **ONLY**; parents and adults may not participate. However, parents may watch the first and last 10 minutes of class if they would like.
 - This class is labeled "intensive" because it is fast-paced and can be overwhelming for some individuals. The choreography learned is at an average difficulty level of 2-3.
 - Children under 11 are not advised to take the class unless they have prior dance experience or are passionate about improvement. If a child/teen feels overwhelmed by the pace, a lower-level class is recommended.
 - This class teaches more than just K-pop dances! Choreography will be chosen by the teacher based on what the students need to improve. Sometimes, the teacher will ask students which dances they'd like to learn and will select the most appropriate ones for skill building.

Notes

- If you are unsure of the level to attend, it is better to try a lower level first and move up. If anyone who takes the 102 class is curious about the teens intensive and if the level is appropriate for them please discuss it with the teacher.
- Parents and adults may not take the class. If your child is nervous on their first day, parent observation on the first day is allowed, but for the kids/teens to gain confidence and feel a bit more independent we encourage parents to be present for the first 15 min of class.
